

---

During my recent campaign for Clayton County Superior Court Judge, I have utilized social media and internet-based advertising, as well as mailers to reach and communicate to the citizens of Clayton County.

If elected, I intend to fairly consider each matter that comes before me and make decisions based upon evidence and the law. To the extent that any of my previous campaign literature and/or advertisements appeared to reflect that I would pre-judge any matter or was committing to making certain decisions or rulings, I would like to ensure the public that I will be fair and impartial to all who come before me and will be committed to upholding the independence, integrity and impartiality of the judiciary.

In addition, judicial races are non-partisan and do not permit a political party affiliation.
